FORCIBLY DISPLACED POPULATIONS, 1964-2008.
United States Committee for Refugees and Immigrants (USCRI), *World Refugee Survey* (Annual Series). Compiled by Monty G. Marshall, Center for Systemic Peace <www.systemicpeace.org>

CODEBOOK

Formats: **FDP2008.sav** (SPSS; country-case), **FDP2008.xls** (Excel)
                       FDP2008a.sav (SPSS; annual time-series), **FDP2008a.xls** (Excel)
Note: Data is missing for the years 1973, 1975, and 1979; no copies of these issues are known to exist. See USCRI, *World Refugee Survey*, or visit the USCRI Web site at <www.refugees.org> for a full description of USCRI data methodologies. Beginning with the 2007 edition (2006 data), USCRI stopped listing estimates of the numbers of "internally displaced persons" (IDPs); those figures are now reported by the Internal Displacement Monitoring Centre <www.internal-displacement.org>.

Country-case Variables: (FDP2008.sav and FDP2008.xls)

CCODE   INSCR Standard 3-digit Numeric Country Identifier Code

SCODE   INSCR Standard 3-letter Alpha Country Identifier Code

COUNTRY   Country Name

USCRREG   USCRI-designated Region Code (used to facilitate data entry)

REGION   INSCR Standard Region Code

SOURCExx   Number of Refugees (x1000) Originating in the Named Country at the end of the Designated Year (xx: 64-08)

IDPxx   Number of Internally Displaced Persons (x1000) in the Named Country at the end of the Designated Year (xx: 64-08)

HOSTxx   Number of Refugees (x1000) Hosted by the Named Country at the end of the Designated Year (xx: 64-08)

Note 1: The value "999" is used to denote a missing value in the country-case dataset; it is never used as an actual value.

Annual Time-series Variables: (FDP2008a.sav and FDP2008a.xls)

CCODE   INSCR Standard 3-digit Numeric Country Identifier Code

SCODE   INSCR Standard 3-letter Alpha Country Identifier Code

COUNTRY   Country Name

YEAR   Year (Countries are listed from their first year of independence or from their first listing by USCR as a source or host of refugees or source of internally displaced populations, whichever came first)

SOURCE   Number of Refugees (x1000) Originating in the Named Country at the end of the Designated Year

IDP   Number of Internally Displaced Persons (x1000) in the Named Country at the end of the Designated Year

HOST   Number of Refugees (x1000) Hosted by the Named Country at the end of the Designated Year

Note 2: The annual time-series data does not include figures reported for refugees from non-specific (e.g., Eastern Europe or Latin America) or unspecified ("other") sources. As such, the summed estimates for SOURCE may be somewhat lower than the summed HOST estimates; the HOST variable provides the full accounting of refugees as it includes numbers of refugees from non-specific and unspecified sources. These estimates are included in the Country-case version of the FDP dataset under separate case listings.

Note 3: Non-specific (regional) sources and/or hosts of refugee populations as reported in the *World Refugee Survey* series include "Eastern Europe," "Latin America," "Former Yugoslavia," and "Former Soviet Union." Numeric- and Alpha-identifier codes have been assigned to these entries in order to keep these entries organized:
992 EEU Eastern Europe
993 LAM Latin America
997 FYG Former Yugoslavia
998 FSU Former Soviet Union
